

# Administrative Data Training

The logo for 'centric' is a blue circle with a pattern of white dots of varying sizes, and the word 'centric' in white lowercase letters to its right.

Developed in partnership with the public, data providers, regulators and academic researchers to provide a broad introduction to working with administrative datasets in the UK. The training course is free to use and includes 6 modules plus an extensive resources section - see more info below:

## MODULE

# 1

**Introduction to Administrative Data:**  
Highlights the potential of using administrative data as an efficient research method.

## MODULE

# 4

**Key Regulatory Considerations:**  
Introduces researchers to core regulatory considerations when using administrative data.

## MODULE

# 2

**Administrative Data in the Study Lifecycle:**  
Provides a comprehensive map of applicable topics when accessing administrative data.

## MODULE

# 5

**The Application and Approvals:**  
Introduces the process of applying for data from key UK data providers.

## MODULE

# 3

**Safeguarding Public Data – Models of Data Access and Identifiability:**  
An overview of some current models of processing administrative data in the UK.

## MODULE

# 6

**Working with the Public:**  
Explores public perspectives when researchers use administrative data.
