Navigating the path from Parent to Professor

Dr Jennifer Edwards & Dr Kathryn Jones

Primary caregivers working in academia face the immeasurable challenge of having to divide their time between research, teaching, parenting and self care, often leading to sacrificing the latter in the current status quo. Jenny and Kathryn will take us through their personal journeys of parenthood, providing insights into how to tackle the injustice faced by parents in the academic world today.

Have you ever wondered how you could help diffuse a situation that you observe, even if you don't feel comfortable confronting it in the moment? Being a positive bystander means taking action that could help a victim of harrasment or bullying, but in a way that keeps you safe and within your comfort zone. In this short taster session, Wendy will give you an introduction to some of the techniques you could use, and a chance to network with others to share experiences in a safe space.
