

**SCOTTISH PARLIAMENTARY
AND
WELSH ASSEMBLY
ELECTION STUDIES
1999**

**DOCUMENTATION OF
THE BLAISE QUESTIONNAIRE**

Notes:

1. This is a documentation of the Blaise program. Not all variables that appear here are on the SPSS file. (Those that are not are marked with a '\$'). Similarly, not all derived variables that are on the SPSS file are mentioned here. See also separate documentation of derived variables.
2. Unless otherwise specified, 'Don't Know' is code 8 for single column questions, code 98 for two column questions, and so on.
3. Unless otherwise specified, 'Refusal/Not answered' is code 9 for single column questions, code 99 for two column questions, and so on. Where there is an explicit 'Refusal' code (usually code 7 or 97), then code 9 (or 99 and so on) is reserved for 'Not answered' only.
4. Sections in brackets and italics were textfilled as appropriate on the interviewer's computer.
5. Routeing instructions appear above the questions. A routeing instruction should be considered to stay in force until the next routeing instruction.
6. Because the Welsh Assembly survey was conducted with a split sample with part being interviewed face-to-face and part being interviewed on the telephone, there are many places where there is a face-to-face and a telephone version of the same question. The telephone version generally has a similar name to the face-to-face version, but suffixed 'T'. The data from the telephone versions of questions have been copied into the main question, so that, although the routeing reads 'WALES: ASK ALL ON FACE-TO-FACE VERSION', the SPSS file also contains the telephone data.
